Uncertainty's Reign

My First TIA!

Scrambled Thoughts,
Words Won't Come Together,
Balance a Little Shaky,
Momentary Tingling in Right Fingers.

Begins Clearing in a Couple of Hours;
Mostly Gone Next Morning.

Grandfather Had a Serious Stroke;
Life Limping With a Cane.

Disconcerting!

What Happens Now?
TIAs the Undertow Among the Elderly?
Mini-Strokes the Bridge To Dementia?

Is My "Deacon's Wagon" Falling Apart
In a Wobbling Glide Downhill?

OK!! Stop Complaining;
"You've Had a Long and Privileged Ride."

Unfortunately,
The Cloak of Acceptance
Is Not Easy to Don.

Uncertainty…..Always There.
Sometimes It Makes Me Creative,
Sometimes I Ignore It and Slip By,
Sometimes It Throws Me to the Ground.

The Only Certainty
Is
Uncertainty's Reign.
