

Getting There: Raw – Ripe – Rotten

Ripe Is Ready,
At the Pentacle
Of Desirability,
There Now.

Rotten Is Too Late,
Past Its Time,
Deteriorating,
There and Gone.

Raw Is Too Soon,
Still Emerging,
Need to Wait,
Not There Yet.

Who Decides?

The Potential Consumed?

The Consumers:

Worms, Butterflies, Birds, Herbivores, Humans?

Varied Interests,
Different Schedules,
Alternative Points of View,
Maybe Now.....Maybe Later.....Maybe Not At All.

Judgments;
Any Equality
For the Perspectives
Of the Different Interested Parties?

Not in the Current Consumer Hierarchy:
Human Dollars and Power Prevail,
Exclusive Short Term Gain,
Long Term Consequences?...."Relax!"...."Don't Worry!"

So, What's the Next "Ripe" Consumption Target
To Add to the Modern Human Devastation Ledger?

! Rotten !
