

Home Run

Making It Home,
The Ultimate Goal!

Where Is Home?

Where I grew up to age 8?

Where I was after my family first moved, age 9 – 15?

Where I moved to finish high school, age 18?

Where I went to college, age 18 – 22?

Where I got my first job, age 23?

Where my wife and I moved when we got married, age 26?

Where we moved when our first child was born, age 32?

Where we twice moved to better locations as my career advanced, age 37 – 43?

Where I moved after my wife and I divorced, age 44?

Where I moved for my last job, age 52?

Where I moved after I married the second time, age 54?

Where we moved when I retired, age 66?

Where we moved for senior living, age 74?

Where I moved after my second wife's death, age 77?

Where I moved to live with my second child as my health declined, age 82?

Home for Me has been different suburbs, cities, states and countries.

Home is where I live at the time, not where I "come from."

I have spent a lot of my life on 1st base,

Always wanting to proceed to second,

Waiting for opportunities and conditions to move on.

Collectively, I think I have achieved several Home Runs!

HOME

Individual Mobility or Community Stability?

ME or WE?

Any Place or This Place?
