

Spirituality Supports a Trans/Inter-Dimensional Reality

2026

Thomas A. Burns PhD

Klamath Falls, Oregon

Our standard material reality is the reality of three dimensions of space and one dimension of time. In this reality “things” are separate in space and time. The paranormal or psi phenomena [telepathy, clairvoyance, precognition and psychokinesis] violate these separation requirements. From the strict material perspective these human psi capabilities are miraculous and associated with religious/spiritual gurus, saints, saviors and prophets. But such psi phenomena occur in altered states of mind that engage a transitional reality, not entirely apart from the material “norm.” By contrast, deep spiritual states of unification extend this trans condition toward inter dimensional status – to existence in distinct layers of a multi-dimensional reality. But for the few humans with deep meditative abilities, the experience is passive – limited to mental awareness and not to active utilization/exploitation. Overall we humans live in a confined reality.

Humans have extended psi/unification potential, but in our materially absorbed culture we fail to develop it, instead focusing on the analytical mental process of engagement. Other humanoids [ultra and extra terrestrials] have mastered operating in both trans and inter dimensional realities and have created artifacts that can be utilized in these realms to consequences radically different from what standard humans can achieve. Inter-dimensional capability voids the restrictions of three dimensional space and time and allows for abrupt relocation in space as well as time [time “travel”].

If we elect to do so, humans can develop genetically and culturally in this “extra” humanoid direction. Indeed, we probably must do so if we expect to escape the limitations of Earth and participate in the vastly greater cosmic reality.

In our present, extraordinarily limited reality, the Big Question now arising is whether awareness of ultra and extra terrestrial humanoids and their capabilities will result in our being led by fear, threat and aggressive antagonism or by acceptance, opportunity and cooperative integration.

We must avoid adopting the defensive threat alternative! We are no match for humanoids whose overall capabilities so far exceed our own. As mere babes in the reality woods, our only real option is to respect, share and seek inclusion.

Spirituality Opens the Door.
Prepare to Step Inside
And Join the Greater Humanoid Collective.
