

# UFOs/UAPs and Ultra/Extra Terrestrials – Best Disclosure Sources, 2026 2026

Thomas A. Burns PhD.

Klamath Falls, Oregon

Since the mid 1950s, everyone on a global scale has been the target of a long term, comprehensive national security state disinformation campaign led by an insider military, intelligence, corporate cabal to sustain secrecy regarding UFOs/UAPs and their associated advanced technology capabilities. Denial and ridicule has stigmatized the very topic for the public. Additionally, required commitments to secrecy for all insiders along with threats of prosecution and “termination” if non-disclosure commitments are not upheld have resulted in 80 years of sustained secrecy. Only in the last few years since 2010 has the momentum arisen to support disclosure both within the government and to the public – especially in the western democracies. In this context, a large number of books and documentaries have been produced on the combined UFO/UAP, Ultra/Extraterrestrial Entities, and the Advanced Technology issue.

Among the plethora of books and documentaries, I recommend the following:

## Documentaries

- “The Age of Disclosure,” 2025, 1hr and 49 min., 34 highly qualified government insiders share their general knowledge on most of the important aspects of the issue. Available for rental on several internet platforms.
- “The Program,” 2024, 1hr and 42 min., focused on disclosure in the U.S. Congressional hearing context. Available free on several platforms.
- “Asymmetric Disclosure,” 2025, 1hr and 46 min., overview by Dr. Steven Greer, long time director of the Disclosure Project. Free on Prime and Apple TV.
- “The Lost Century,” 2023, 1hr and 46 min., Dr. Steven Greer describes the great cost to humanity of long term secrecy. Available free on several platforms.

## Books

Richard Dolan, UFOs and the National Security State, 2 published volumes covering the periods 1941 – 1973, and 1973-1991 with at least one more volume expected soon. Vol 1, Chronology of a Cover Up, 2002, 810 pp.; Vol 2, The Cover Up Exposed, 637pp. Dolan is a serious historian and his works are documented in great detail. Among the many books and documents on the subject, he references the relevant additional sources.

## New In 2026

Dr. Steven Greer is frustrated to the present with the very weak nature of U.S. governmental disclosure on the subject. If there is no better commitment by 8/26/26, he has threatened to release the detailed “revelatory” library of The Disclosure Project in collaboration with many other frustrated organizations and hundreds of both known and unknown insiders and whistleblowers. We will see!
